

Opinion poll on cultural and literary awareness

This poll, conducted in Greater Beirut, aims to assess the general public's preferences in the domains of art, culture, literature and entertainment.

Respondents were queried regarding their favorite TV programs and preferred reading, including literary habits across the different mediums of newspapers, magazines and books.

The popularity of cultural activities such as visiting museums, attending the theater, exhibitions and musical events was also gauged.

Finally, respondents were asked to name their favorite entertainers and were tested on their knowledge and recognition of prominent Arab artists, writers, musicians and other personalities.
